POSTDOC LUNCH

GEOMAR
PACT Postdoc Academic Career Support

Tuesday, 20th April 2021 | 1-2 pm | online meeting

Prof. Dr. Stephen Curry: Benefits of science communication - a scientist's perspective

In his talk he will give a personal account of how the decision to start writing a science blog in 2008 led to a broader interest in science communication, science policy, the culture of science and a career shift. Science communications doesn't have to be every scientist's passion but in the midst of a viral pandemic, it's importance is clearer than ever.

Stephen Curry is a Professor of Structural Biology at Imperial College London where he also serves as the Assistant Provost for Equality, Diversity and Inclusion. For many years he has been a writer and campaigner on a range of scientific issues including open access, research assessment, research funding and science policy. He is currently chair of the San Francisco Declaration on Research Assessment (DORA).

The Postdoc Lunch is an informal meeting of postdoc scientists in temporary employment at GEOMAR. The Postdoc Lunch takes place every two weeks on Tuesdays from 1:00 to 2:00 pm. At present only virtual. Information about the room will be communicated timely via the PACT-mailing list. At each meeting, there will be a 20-minute information talk on "What every postdoc should know" followed by time for questions and general exchange. Our new postdocs will be introduced and welcomed.
