

Invitation to the 7th Future Ocean Postdoc Event

Networking and professional exchange of postdocs

The Future Ocean Network organizes a Postdoc Event every first Friday of the month, from 11:00-12:00h.

The aim of the event series is to enable networking and professional exchange among interested postdocs of all faculties and partner institutions. In these events early career academics in leading positions will present their professional development, working methods and fields of research.

5 November 2021: 11:00 to ca. 12:00 h, virtual event

Felix Elling is presenting his field of research and his career path

Felix Elling is an Emmy Noether research group leader at the Leibniz Laboratory for Radiometric Dating and Isotope Research at Kiel University. He started his position in April 2021. From 2016-2020 he was a post-doctoral fellow at the Department of Earth and Planetary Sciences at Harvard University, USA. His research interests include organic geochemistry, geobiology, and paleoclimate. He connects these fields by studying the molecular fingerprints of microbes to reconstruct their interactions with geochemical processes and climate, on timescales covering the modern to the distant geological past.
