Nele Dageförde: TransMarTech – showing options for marine scientists

The classical scientific career path is only one option for the further professional development of post-doc candidates. Beyond the scientific career path, a variety of exciting and sometimes unexpected opportunities invite you to rethink your scientific career and turn it upside down and disrupt it!

Presenting best practice examples, we invite you for a journey to the unknown paths of hidden opportunities for scientists and encourage you to explore options that deviate from the classic scientific career path

Nele Dageförde, Managing Director of TransMarTech S-H GmbH (Technology Center for Maritime Technologies) has had many different roles in her professional career: the graduate in business administration has worked for big corporates like Siemens, founded two companies and was responsible for product marketing and operations in a Swiss big data marketing technology company.

Her call: For a job with purpose you need both: the mindset to learn everything that it takes to perform the job and a solid toolset of expertise.

The Postdoc Lunch is an informal meeting of postdoc scientists in temporary employment at GEOMAR. The Postdoc Lunch takes place every two weeks on Tuesdays from 1:00 to 2:00 pm. At present mostly virtual. Information about the room will be communicated timely via the PACT-mailing list. At each meeting, there will be a 20-minute information talk on "What every postdoc should know" followed by time for questions and general exchange. Our new postdocs will be introduced and welcomed.
