

13-Sep-23

Begutachtete Publikationen (refereed publications):

2024

235. A. Prigent, R.A. Imbol Koungue, J.F. Lübbecke, P. Brandt, J. Harlaß, and **M. Latif**: Future weakening of southeastern tropical Atlantic Ocean interannual Sea Surface Temperature variability in a global climate model. *Climate Dynamics*, in revision.
234. Y. Zhang, T. Bayr, **M. Latif**, Z. Song, W. Park, and A. Reintges (2024): Local and remote causes of the equatorial Pacific cold sea surface temperature bias in the Kiel Climate Model. *J. Climate*, in revision.

2023

233. A. Savita, J. Kjellsson, R. Pilch Kedzierski, **M. Latif**, T. Rahm, S. Wahl., and W. Park (2023): Assessment of Climate Biases in OpenIFS Version 43R3 across Model Horizontal Resolutions and Time Steps. *Geosci. Model Dev.*, submitted.
232. T. Bayr, J.F. Lübbecke, and **M. Latif** (2023): Strong Eastern Pacific El Niño events determine ENSO amplitude and asymmetry. *Nature Communications*, to be submitted.
231. **M. Latif**, T. Bayr, J. Kjellsson, J.F. Lübbecke, T. Martin, H. C. Nnamchi, W. Park, A. Savita, J. Sun, and D. Dommgenet (2023): Unexpected atmospheric circulation trends slowed tropical Pacific surface warming. *Communications Earth & Environment*. DOI: 10.1038/s43247-023-00912-4.
230. H.C. Nnamchi, R. Farneti, N.S. Keenlyside, F. Kucharski, **M. Latif**, A. Reintges, and Th. Martin (2023): Pan-Atlantic decadal climate oscillation linked to ocean circulation. *Communications Earth & Environment*. DOI:10.1038/s43247-023-00781-x.
229. J. Sun, **M. Latif**, and W. Park (2023): Atlantic decadal-to-bidecadal variability and its relationship with the multidecadal variability in a version of the Kiel Climate Model. *Climate Dynamics*, accepted.

2022

228. **M. Latif** (2022): The roadmap of climate models. *Nature Computational Science*, DOI 10.1038/s43588-022-00322-0.
227. T. Bayr and **M. Latif** (2022): ENSO Atmospheric Feedbacks under Global Warming and their Relation to Mean-state Changes. *Climate Dynamics*, DOI 10.1007/s00382-022-06454-3.
226. **M. Latif**, J. Sun, M. Visbeck, and M.H. Bordbar (2022): Natural variability has dominated Atlantic Meridional Overturning Circulation since 1900. *Nature Climate Change*, DOI 10.1038/s41558-022-01342-4.

2021

225. J. Sun, **M. Latif**, and W. Park (2021): Subpolar Gyre – AMOC – Atmosphere Interactions on Multidecadal Timescales in a Version of the Kiel Climate Model. *J. Climate*, 34(16), 6583-6602.
224. A. Imbol Nkwinkwa N., **M. Latif**, and W. Park (2021): Mean-state dependence of tropical Atlantic sector climate change projections. *Geophys. Res. Lett.*, doi.org/10.1029/2021GL093803.
223. G. Beobide Arsuaga, T. Bayr, A. Reintges, and **M. Latif** (2021): Uncertainty of ENSO-amplitude projections in CMIP5 and CMIP6 models. *Climate Dynamics*, doi.org/10.1007/s00382-021-05673-4.

222. H. Nnamchi, **M. Latif**, N. Keenlyside, J. Kjellsson, and I. Richter (2021): Diabatic heating governs the seasonality of the Atlantic Niño. *Nature Communications*, 12:376, doi.org/10.1038/s41467-020-20452-1.
221. T. Bayr, A. Drews, **M. Latif**, and J. Lübbecke (2021): The Interplay of Thermodynamics and Ocean Dynamics during ENSO Growth Phase. *Climate Dynamics*, DOI 10.1007/s00382-020-05552-4.

2020

220. Z. Song, **M. Latif**, W. Park, and Y. Zhang (2020): Interdecadal Pacific Oscillation drives enhanced Greenland surface-temperature variability during the Last Glacial Maximum. *Geophys. Res. Lett.*, DOI: 10.1029/2020GL088922.
219. A. Prigent, R. Anicet Imbol Koungue, J. Lübbecke, P. Brandt, and **M. Latif** (2020): Origin of weakened interannual sea-surface temperature variability in the Southeastern Tropical Atlantic Ocean. *Geophys. Res. Lett.*, DOI: 10.1029/2020GL089348.
218. A. Reintges, **M. Latif**, M.H. Bordbar, and W. Park (2020): Wind stress-induced multiyear predictability of annual extratropical North Atlantic sea surface temperature anomalies. *Geophys. Res. Lett.*, DOI: 10.1029/2020GL087031.
217. A. Prigent J. Lübbecke, T. Bayr, **M. Latif**, and C. Wengel (2020): Weakened SST variability in the tropical Atlantic Ocean since 2000. *Climate Dynamics*, 54, 2731–2744, doi.org/10.1007/s00382-020-05138-0.
216. T. Bayr, D. Dommgenget, and **M. Latif**, (2020): Walker Circulation controls ENSO Atmospheric Feedbacks in Uncoupled and Coupled Climate Model Simulations. *Climate Dynamics*, 54, 2831–2846, doi.org/10.1007/s00382-020-05152-2.
215. H. Nnamchi, **M. Latif**, N. Keenlyside, and W. Park (2020): A Satellite Era Warming Hole in the Equatorial Atlantic Ocean. *J. Geophys. Res. Oceans*. *J. Geophys. Res. Oceans*, DOI: 10.1029/2019JC015834.
